

301.1(3) - Particle Size (powder and solid forms)

PLEASE NOTE: The tables are presented to facilitate comparisons among a family of materials to help customers select the best SRM for their needs. For specific values and uncertainties, the certificate is the only official source.

SRM	Description	Unit Size	Particle Diameter, nominal (nm)
8011	Gold Nanoparticles, Nominal 10nm Diameter	two 5 mL ampoules	10 nm
8012	Gold Nanoparticles, Nominal 30nm Diameter	two 5 mL ampoules	30 nm
8013	Gold Nanoparticles, Nominal 60nm Diameter	two 5 mL ampoules	60 nm
